SUSTAINABLE CITY SOLUTIONS**

Exhibition Organised by

Conference Organised by

Powered by

India's only 360 degree event on city infrastructure development that uniquely helps products, technologies and solutions to reach out to both B2B and B2G buyers

## WHAT THEY SAID...

Over the years, Municipalika has promoted and enhanced the approaches undertaken by the government as it continues India's urban rejuvenation. I am confident that this year's conference and exhibition will also inspire a lot of good ideas and solutions that will be beneficial to the urban space."  
- **Hardeep S Puri, Minister of Housing and Urban Affairs; and Petroleum and Natural Gas, Government of India**

Today, in order to develop at a local level, one must know the measures that cities across the world are adopting for faster development in their region. Municipalika is the right platform to understand problems, find solutions, plan execution, at a global level. Attending all the knowledge-sharing conferences is very important, to learn and apply that knowledge in your concerned local bodies. I am extremely happy to attend the inauguration of Municipalika 2023! I am certain that all representatives will benefit a lot by participating in this show.  
- **Siddaramaiah, Hon'ble Chief Minister, Government of Karnataka**

All important leaders, officers, and representatives from various institutions are here at this 17th International Summit of Municipalika 2023. I congratulate all of you on behalf of the Karnataka Government. This is the perfect platform to share your suggestions for best practices in building smart and sustainable cities.  
- **D. K. Shivakumar, Hon'ble Deputy Chief Minister, Government of Karnataka**

It gives me immense pleasure to be a part of Municipalika 2023. This summit serves as an important platform to share knowledge and promote the dialogue, and to network with the people in the field of urban development; ultimately aiming to contribute to creating a more livable, resilient and sustainable urban ecosystem.  
- **B.S. Suresha, Hon'ble Minister for Urban Development and Town Planning (including KUWSDB and KUIDFC), excluding Bangalore City Development**

As the apex industry body for promoting the interests of national development and all stakeholders in the city development, NAREDCO is happy to lend its full participation and support to Municipalika.  
- **Dr. Niranjan Hiranandani, President, NAREDCO**

This event will deliberate on the challenges of faster development of Smart Cities and have recommendations and solutions to give an impetus to this important task. Warm welcome to all the delegates on behalf of Govt. of Karnataka and wish the event a grand success.  
- **Rahim Khan, Hon'ble Municipal Administration and Haj Minister, Government of Karnataka**

The benefits of our bilateral ties & the AI-ECTA are prominent in supporting Australia-India infrastructure collaboration. We are pleased to see the Australian Infrastructure industry strongly represented at Municipalika 2023.  
- **Catherine Gallagher, Minister Commercial, Australian High Commission and Head of the Australian Trade & Investment Commission (Austrade) - South Asia**

Great experience! This platform is very useful for us to showcase our products to the government directly. Congratulations to the organisers for such a great show! Thank you for letting us be a part of the progress you are working towards for this country.  
- **A. L. Narasimhan, VP - Strategic Business Alliances, Prama India**

It's important for us to be in front of municipalities and smart cities, for them to understand the latest tech trends, and how important digitalisation is in today's infrastructure.  
- **Sabyasachi Bhattacharya, Global Product Line Manager, ABB India Ltd.**

Such exhibitions help us to share information about our upcoming products with the main stakeholders in the industry. It is an opportunity to showcase the new and sustainable technologies that we use, which the visitors here have shown great interest in.  
- **P M Hiremath, Regional Manager - South, WT & RMD, Ultratech Cement**

A lot of dynamic things going on here! Our products are sold to the municipalities of all over India - so, this show definitely helps us to understand the expectations of the southern market and work towards it.  
- **Folkert De Jong, President - Asia, Keith Walking Floor India Pvt. Ltd.**

## THE FUTURE OF CITIES : SAFE, SMART & SUSTAINABLE

Bengaluru, the capital city of Karnataka and a major IT hub in India, has become one of the fastest-growing cities in the country. Popularly known as the 'Silicon Valley' of India and the 'Garden City' of India, Bengaluru is the fourth-highest GDP contributor. The city has grown phenomenally in terms of technology, industry, enterprise and above all, opportunity.

Major IT companies, start-ups and multi-nationals have their headquarters in Bengaluru. The rapid pace of urbanisation, better educational environment, job prospects, healthcare and recreational facilities have contributed to the growing population of the city with an ever-increasing influx of people.

Bengaluru's growth has posed its own set of challenges. The city's green patches, parks, open public spaces, lakes and water bodies have been under strain over the years. There is an enormous pressure on groundwater supply while the consumption is rapidly rising. Waste management, sustainable urban transportation, etc. are other issues that the city faces.

The authorities and policy makers in the city of Bengaluru, and in the other urban centres of Karnataka, have been focussing on these challenges with a host of proactive policies, strategies, best practices, and technological solutions.

Coming out of the years of pandemic, safety and sanitation assume paramount importance on the public agenda. Pandemic episodes are likely to repeat in the coming years; now, the most important question is how best can public bodies prepare and face these unique situations without bearing the brunt of long and costly lockdowns.

Municipalika 2024, under the banner of Future Cities, aims at addressing these issues and providing a platform to all major national and international urban and housing stake-holders, technology and service providers, and institutions to discuss the possibilities, opportunities and solutions for these city development challenges, not only for the city of Bengaluru, but for cities and towns all over India.

# THE SHOW

- With the rapid pace of urbanisation, Indian cities and urban areas are experiencing massive expansion and growth, throwing up huge challenges and business opportunities. In most cases, the city level infrastructure is bursting at the seams. The Government of India programmes like Swachh Bharat Mission 2.0 - Sanitation for all, Housing for All under PMAY (Pradhan Mantri Awas Yojana), Smart Cities Mission 2.0, 500 Cities and beyond under AMRUT 2.0 (Atal Mission for Rejuvenation and Urban Transformation) and HRIDAY (Heritage City Development and Augmentation Yojana) for Heritage Cities are driving central and state governments, urban local bodies and private industry by creating the right environment and enabling them for building smart, safe and sustainable cities.
- The years of pandemic have brought to light new and unique challenges for cities: the increase in digitalisation and automation of services, the need for contactless experiences, safety of water and recycling, etc. How to make cities safe and resilient for a better tomorrow?
- For the last 20 years, Municipalika, International Conference and Exhibition on Making Cities Work has been instrumental in highlighting pertinent issues revolving around these challenges and opportunities, sharing best and leading practices, showcasing technological and managerial solutions and providing inputs for policy interventions.
- It will have the participation of Countries, States, Municipal Corporations and Parastatal boards displaying the initiatives they have undertaken for their cities, along with 500+ technology solution providers for city development needs, exhibiting their technologies and displays.
- More than 2,000 delegates and 10,000 visitors are expected to participate in the unique mega show for building better cities.

# WHO EXHIBITS AT MUNICIPALIKA

Solution providers of :

## Water & Wastewater

Water treatment, Desalination, Sewage Treatment, Recycling and Reuse

## Sanitation, Solid Waste Management & Recycling

Sanitation for all, ODF Cities, Municipal, Industrial Hazardous, Bio-Medical, Construction & Demolition and E-waste/ Recycling and Waste to Energy

## Urban Infrastructure Development

City Infrastructure for Roads, MRT, BRT, LRT, Transportation, Airports, Electricity and Lighting, Power, Telecom, Energy, Technology and Financing options

## Urban Housing

Housing for All, Slum-free Cities including technology and financing options

## Smart and Digital Cities

Smart Cities, Geospatial/GPS Solutions, E-Governance, ICT Applications

## Urban Transportation & Traffic

Mass Rapid and Multimodal options, Traffic Management and Parking Solutions, Intelligent Transport Systems, Smart Cards and Payment Technologies, Hyperloop, Personal Rapid Transit

## Electric Mobility

Electric, Hybrid, Alternative Fuel Vehicles, Autonomous Vehicles, Storage/ Batteries, Charging Infrastructure

## Green Cities

Sustainable Infrastructure Development, Green Built Environment and Renewable Energy

## Environment & Pollution Control

Pollution Control Technologies and Clean Air, Land and Water Technologies

## Safety & Security

Fire Safety, Prevention, Protection and Rescue, Security Installation with Audio and Video Surveillance, Disaster Mitigation

## CAPEX (Construction, Architecture, Planning and Engineering Expo)

### Exhibitors of Innovative Building Materials & Technologies

Cement and Concrete ■ Steel and Iron ■ Fenestration, Doors, Windows, Systems ■ Glass and Glazing ■ Tiles, Sanitary Ware and Bathroom Products ■ Stones, Marbles and Granites ■ Paints and Coatings ■ Elevators, Escalators and Moving Walks ■ Heating, Ventilation, and Air Conditioning (HVAC) ■ Fire Protection, Security

## ARCHITECTURE IN THE AGE OF MILLENNIALS

Architecture in the Age of Millennials is a unique conference programme that addresses the changing landscape of architecture, the challenges and the scope of innovation it has to offer. It welcomes thought leaders to discuss sustainable urbanism and all aspects of architecture and building materials for the Millennial generation through exhibition displays and conference sessions on Sustainable Built Environment.

## WHO VISITS

Central, State, City and Regional Authorities ■ Central Ground Water Authority/Municipal Water Authorities ■ Fire Protection and Security Professionals and Specialists ■ Mayors/Commissioners/CEOs ■ Town Planners, Architects, Engineers and MEPF Experts ■ Waste Management Professionals, Companies, Experts, Consultants ■ Green Building and Built Environment Consultants ■ HVAC Engineers and Contractors ■ Health Services Professionals ■ Real Estate Developers and Housing Experts ■ Plumbing and Sanitation Engineers and Contractors ■ Institutional and Private Investors, Buyers and FIs and HFCs ■ Smart Cities/AMRUT Cities ■ Public Works and Public Health Engineering Department ■ Traffic, Road Department and Consultants ■ MRT, LRT, Urban Mobility Change Agents and Parking Professionals ■ Service Providers ■ Urban Designers ■ Water and Waste Water Consultants and Experts ■ Waste Management and Waste to Energy Experts ■ Landscape Architects and Consultants ■ Consultants to Municipal Corporations ■ GIS, GPS and ICT Professionals, E Governance Experts ■ Builders, Developers and Construction Entities ■ Power and Renewable Energy Companies and Experts ■ End Users and Occupiers
